EDUCATION

Fordham University – Bronx, NY

May 2020

Bachelor of Arts in Sociology

TECHNICAL SKILLS

Front End: React, JavaScript, HTML, CSS, and Jest

Back End: Node, Express, MongoDB, Mongoose, and PostgreSQL

PROJECTS

MEDR (In Development)

[Source](#)

- MEDR is a web app that allows users to store and track prescriptions to help with medication adherence
- Designed and developed the front end, back end, and database
- Technology Used – React, Node, Express, MongoDB, Mongoose, PostgreSQL, Prisma, Amazon AWS

Weather Query

[Demo](#)

- Created a web app using the OpenWeatherAPI which returns weather conditions from user defined queries
- Technology Used – HTML, CSS, JavaScript

RELATED EXPERIENCE

Wildlife Conservation Society

Bronx, NY

Visitor Research & Evaluation Intern

May 2019 – August 2019

- Worked across teams to support visitor research, prioritize research workflow, and deliver innovative solutions.
- Mentored a team of junior researchers and frequently acted as a primary source for zoo knowledge and field research.
- Created a personal task manager to track and monitor daily work activities and research supply inventory. Built using JavaScript and Local Storage.

Wildlife Conservation Society

Bronx, NY

Research Mentor

May 2018 – August 2018

- Selected out of 15 research mentors for university magazine feature based on leadership potential and project success
- Led a 3-member team in an urban ecology research project on birds across Manhattan and the Bronx, which included managing 3 umbrella projects and weekly check-ins on project progress
- Presented and interpreted findings for both specialized and general audiences

Fordham University

Bronx, NY

Undergraduate Research Assistant

June 2017 – August 2018

- Collaborated with professors, Ph.D. students, and undergraduates to conduct laboratory research on infectious disease and shared findings during weekly journal clubs
